The faculty activity reporting system you'll actually use

You're busy. Your schedule is jam-packed with teaching, research, and service activities, so you don't have time to spare for updating multiple campus systems, let alone responding to repeated requests for information about your professional activities and qualifications.

Discover the faculty activity reporting solution used by thousands

Watermark Faculty Success is a faculty activity reporting solution designed to solve this problem, and it's currently used by nearly 600,000 faculty members to quickly and easily record their accomplishments. Faculty Success serves as a secure, central repository of your accomplishments, ensuring that when you enter an activity, it's always available for your own needs (think grant application CV or conference proposal) as well as your institution's.

Make it 5x easier to record accomplishments

Import information directly from your trusted CV and quickly validate it, making it five times faster for you to get your activity data into the system. Faculty Success offers robust security settings and reporting permissions that ensure your information lands only in the correct hands.
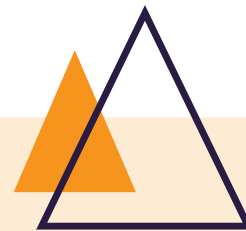

Read on to learn why top faculty across the country love using [Faculty Success](#).

The benefits for you

Enter information once, use it again and again

▶ **Import accurate, current, and trusted information directly from your CV** so you can spend a fraction of the time entering data and more time on impactful work.

▶ **Record your teaching, research, and service activities** in a purpose-built system that captures all the details so you always have an accurate and comprehensive chronicle of your achievements.

▶ **Supplement your CV data with information from publication repositories** (including ORCID, PubMed, Scopus, and others) in one location without repetitive data entry.

▶ **Maintain your activities for multiple uses**, including web profiles, review processes, grant and award applications, conference proposals, and your institution's accreditation and other reporting.

Let your achievements shine

▶ **Share the accomplishments you choose on your faculty profile** on your campus website. New achievements you enter and choose to make public will appear automatically in your public-facing web profile.

▶ **Expand the reach of your profile** with a web presence that communicates the value of your work to the public — including current and future students, alumni, and the media — and to others in your discipline.

▶ **Get tapped to collaborate on more research** — your peers can search for specific experience with just a few clicks.

▶ **Give your university, program, and department the leg up.** With increased access to faculty activity information, your campus can identify compelling faculty teams and attain more grants.

Take some stress out of reviews

▶ **Create a single source of truth** that can be used in career development conversations to ensure your career is on track.

▶ **Ensure the security of your activities** by controlling when and how your reports are reviewed.

▶ **Ditch the hours of work** spent preparing a binder for annual review or promotion and tenure. Instead, simply run a report that pulls together the activities and artifacts you've been capturing in Faculty Success all along.

▶ **Ease committee work with a concurrent review process** that makes evaluation faster and easier for all involved. A clear, step-by-step workflow guided by notifications helps you track progress within the system.

We make tracking and reporting your achievements easier — so you can reflect on your accomplishments, then get back to what you do best.
