

Watermark Faculty Success

Keep faculty accomplishments front and center. Capture data once and leverage it infinitely to showcase faculty impact and foster their growth.

Faculty Success is built to help your faculty showcase their accomplishments and help administrators support their success. Enable insightful reviews, clarify career paths, and centralize faculty data so it's always accessible.

- Make it easy for faculty to share their details and for administrators to verify and report on key data and insights.
- Efficiently manage and report faculty credentials for accreditation.
- Motivate faculty and improve career transparency with visualizations of their career milestones and progress.
- Streamline review, promotion, and tenure workflows.
- Automatically keep your website updated with the latest faculty accomplishments.

Minimize data entry burden, maximize data utility

Faculty do a lot. With Faculty Success it's easy for them to showcase their work and its impact. Capture accomplishments efficiently through CV imports, proactive publication search, seamless integrations, a friendly user interface, proxy access, and more. Once gathered, your faculty activity data is always available in one reportable place instead of stored across filing cabinets or thumb drives. Say goodbye to endless data entry and massive annual updates.

Showcase faculty accomplishments with intuitive reporting

Intuitive report builders save time, streamline reporting, and make it easy to demonstrate faculty achievements. Create compelling web profiles and use built-in templates to report quickly and confidently to accreditors. Administrators and faculty alike can run activity reports and CVs. Aggregate information to illustrate achievements, expertise, and impact – in just minutes.

Clarify and enhance support for faculty career paths

Help faculty understand and navigate their career paths while giving leaders visibility into critical events that impact future planning. Bring your handbook to life with reusable, versioned, and visual timelines that map career milestones and clarify requirements. Adjust individual timelines based on unique career events, like leaves of absence, to give faculty and administrators a clear view of their professional trajectory.

Capture, confirm, and report faculty credentials

Tie degrees, accomplishments, and other credentials together to show how each faculty member is qualified to teach their courses. Run credentials through your institution's review and approval process. Then, with just a few clicks, report your roster of faculty qualifications with prebuilt templates designed for your accreditor.

Centralize data and workflows for key faculty processes

Faculty Success digitizes faculty annual reviews, promotion and tenure, credentialing, sabbatical applications, and other faculty-related processes. Automated timelines, reminders, visually mapped workflows, and participant management tools ensure alignment with your campus policies and streamline these processes for everyone involved.

Part of Watermark's EIS (Educational Impact Suite)

Through a direct connection with Watermark Course Evaluations & Surveys, you can incorporate student feedback into faculty reviews in Faculty Success with just a few clicks. Consider these important voices for a more complete view of faculty impact.
